

# RICHARD IRINYEMI

---

## FRONT END DEVELOPER

+44 574857489 | Hull, England UK | [wayskid02@gmail.com](mailto:wayskid02@gmail.com) | [www.ritchieways.dev](http://www.ritchieways.dev)

## PROFESSIONAL SUMMARY:

---

A detail-oriented team player, who is hardworking and passionately seeking a position that offers a platform where I can keep improving my Frontend Development skills. Organized and dependable candidate with good attention to detail and is willing to take on added responsibilities to meet team goals.

## SKILLS:

---

**Frontend** --- HTML | CSS | ReactJS | JavaScript | TypeScript | SASS | Tailwind CSS | DaisyUI | Redux ( Toolkit, Query ) | Git

**Backend** --- NodeJS | Express | Axios | RESTful API | MongoDB | SQL

**Design** --- Web Design | UI

## WORK EXPERIENCE:

---

**Frontend Developer Freelance** | 07/2021 - Current | Remote

- Delivered services to customer within specific timeframes.
- Adaptable and proficient in learning new concepts quickly and efficiently.
- Excellent communication skills, both verbal and written.

**Junior Developer** | 08/2019 - 04/2021 | Christ Embassy, Sapele, Nigeria

- Maintained company branch website.
- Explained technical information in clear terms to non-technical individuals to promote better understanding.
- Learned and adapted quickly to new technology and software applications.

## PROJECT EXPERIENCE:

---

**SocioView** | Social Media Web App | Built with: React, TypeScript, Redux Toolkit, ReduxTK Query, Nodejs, Express, MongoDB, Sass, Tailwind CSS

- Created a full stack web application that allows people post their views on different subjects and topics, follow and be followed and like and comment on posts.
- The overall design and layout of this web app was created by me.
- I had about 50 people including friends and family use this web app and their feedbacks has helped me upgrade it to this point.

**ThriftStarng** | Ecommerce | Built with: React, Nodejs, Express, MongoDB, Axios, Sass

- Created a full stack ecommerce website for an online store on IG @thriftstarng where one can purchase thrift clothes for women.
- This website has paystack in it for payments and I'm working on adding more features in other to enhance user experience and attract more customers.

**WaysChat** | Chat web app | Built with: React, Firebase, Tailwind CSS, DaisyUI

- Created a web application with Firebase, that allows you to chat with anyone in the world using just your email to sign up.
- Everything about this web app was done by me and I'm currently working on adding new features to improve it based on the feedback people I made to try the web app
